Testimonials

“

Powerelec Nigeria 2024 was a spectacular event where power, renewable energy, policy, and investors came together. Forum brought energy and policy makers to deliberate on promoting new technologies in the field. Renewable energy and energy efficiency development to reduce the effect of greenhouse to address climate change issues. The 3-day event has been very insightful. The organisers have done a great work by getting quality exhibitors and speakers

Engr. Abubakar Dapshima
Director Renewable Energy
Federal Ministry of Power, Nigeria

”

“

Firstly, I would like to extend our sincere appreciation for the successful organization and hosting of Powerelec Nigeria 2024. The event provided an invaluable platform for networking and knowledge exchange in the renewable energy sector. As a participant in Powerelec Nigeria 2024, representing Anfani Energy Brokerage, we are eager to preserve the memories and highlights of our involvement

Ishaq Bolarinwa
CEO
Anfani

”

“

I was privileged to attend Powerelec conference that was held between February 20-22 in Lagos, Nigeria. The event was a great eye opener to the growing markets of the renewable energy especially solar energy. As a participant, I learnt from other panel sessions and as a moderator, I learnt from my panel session members and also shared insights about the opportunities to explore in the renewable energy space of Nigeria. I will be glad to attend future events of Powerelec to share ideas, network, see the latest technologies in renewable energy from company showcasing their products and learn from others

Adewole Lawal
Senior Manager Sustainability
Mazars

”

“

Thank you once again for all your efforts around organizing and hosting the PowerElec Nigeria trade-show. It was undoubtedly a momentous undertaking. You executed it with professional poise, grace, and class. Well done!

We thank you for the invitation and we're grateful for the many business opportunities we created there. Hope to see you later this year in Nairobi.

David Krummenacker
Managing Director
African Energy
